

1. Key Concepts & Takeaways

- ☐ One(or more) keyword/definition that was *contrary to common sense or just different*:

- ☐ The **big idea** I learned:

2. After-class Focus (Plan)

Open-ended — what I should spend more time on (topics first; add exact sources if known).

3. Most Challenging (Reality Check)

The part of study that required the **most time/effort** (textbook, slides, hw, proj,...):

4. Maximum Technical Depth

It could be a terminology, method, reasoning step, code pattern, insight, or inspiration:

5. What/How AI Helped Me?

AI helped me on the following topics: _____

- ☐ Giving a **more detailed** explanation ☐ Showing **additional examples**
- ☐ Offering a **cleaner / clearer** description ☐ Explaining from a **different angle**
- ☐ Summarizing or connecting related ideas ☐ Help get the code done ☐ Find more references
- ☐ Other: _____

What is the percentage of the after-class study time is working with AI?

- ☐ 0% ☐ 10% ☐ 20% ☐ 30% ☐ 40% ☐ 50%
- ☐ 60% ☐ 70% ☐ 80% ☐ 90% ☐ 100%

The ‘Moment’ I “Got It” (Aha Moment, okay, that is you doing.):

Paste screenshot / photo / Draw / Describe here (scribe, board, or code)

The ‘Moment’ I “Got Lost” (From can’t follow to no idea what you’re talking about.):

Paste screenshot / photo / Draw / Describe here (where you started to lose track)
